

Supporting  
**World Suicide Prevention Day**

In conjunction with **SAMARITANS**

The latest suicides statistics showed that in 2018, in the UK and Republic of Ireland, more than 6,800 people died by suicide. Every life lost to suicide is a tragedy.

**We are supporting the Samaritans and joining organisations and communities around the world**, coming together to raise awareness of how we can create a world where fewer people die by suicide. **World Suicide Prevention Day is 10 September, every year.**

**We are hosting two virtual support groups on Zoom** to help those affected by suicide in a safe, confidential and inclusive space.

To join **World Suicide Prevention Support Group**, scan the QR codes to the right and enter the password **WSPD**
